## HISTORICAL SKETCH

The United States Naval Academy is an institution of higher education conducted by the Navy Department for the purpose of preparing young men to enter the lowest commissioned ranks of the Navy and Marine Corps. It was founded as the Naval School in 1845 by the Honorable George Bancroft, historian, educator, and Secretary of the Navy, to improve the then unsatisfactory methods of instructing midshipmen. It was located at Annapolis, Md., on the site occupied by Fort Severn, which was given up for the purpose by the War Department. At first the course was 5 years, of which only the first and last were spent at the school, the intervening 3 years being spent on board ships on active service. It was reorganized in 1850-51 as the United States Naval Academy, with a course of study of 4 consecutive years. A summer practice cruise replaced the omitted sea service, and gave better opportunities for intensive training. During the Civil War the Academy was moved to Newport, R.I., but was brought back to Annapolis in 1865, where it has since remained. In the following years great improvements were effected in the organization and curriculum. From 1873 to 1912 the academic course was 6 years, the last 2 of which were spent at sea. In 1912 the course was fixed at 4 years, the 2 years at sea being omitted. During the Civil, Spanish-American, and World Wars, the course was shortened to provide more officers for the fleets. During the World Wars large classes of Reserve officers and Reserve midshipmen were trained at the Academy.

The students undergoing the course at the Naval Academy have been called in turn, acting midshipmen, midshipmen, cadet midshipmen and cadet engineers, naval cadets, and since the act of Congress approved July 1, 1902, midshipmen. A midshipman is an officer in a qualified sense. He is appointed a midshipman in the Navy, not merely at the Naval Academy, is subject to the orders and regulations of the Navy Department, but does not now participate in the benefits of retirement or longevity. He may be ordered to sea duty although this is not customary except on practice cruises. He ranks after a commissioned warrant officer, and ahead of a warrant officer. Upon graduation he may be commissioned an ensign in the line of the Navy, or a staff corps, or as a second lieutenant in the Marine Corps. In addition, 16 members of the class of 1960 were commissioned as second lieutenants in the United States Army and 58 as second lieutenants in the United States Air Force in accordance with Section 541, Title 10, United States Code.

Academic departments were reorganized on June 4, 1959. Under the Superintendent, three academic directors were given cognizance over new departments as follows: Director of Science and Engineering—Mathematics, Science, and Engineering Departments; Director of Social Science and Humanities—English, History, and Government, and Foreign Language Departments; Director of Naval Science—Command, Weapons and Naval Hygiene Departments; and the Commandant of Midshipmen—Executive and Physical Education Departments. At present about 25 percent of the academic work is devoted to the social-human-

istic subjects, about 50 percent to the scientific-engineering subjects, and about 25 percent to the military-professional subjects.

The Naval Academy Library comprises about 160,000 volumes, with many popular, technical and naval magazines. The collection of naval histories and of naval biographies, of works on the development of various types of ships, of seamanship, navigation, aeronautics, ordnance and gunnery is especially strong. It is well developed in history, biography, international law and relations, travel, and in reference works, with other subjects in less degree. In addition, a collection of the best current fiction is maintained for recreational reading.

Beginning in the year 1899, following an appropriation of \$10,000,000 by Congress for the purpose, the Naval Academy was almost completely rebuilt in the French Renaissance style after the designs of the architect, Mr. Ernest Flagg, of New York. The grounds of the Academy proper now comprise 288.28 acres (Government-owned) and 17.26 acres (leased) along the west bank of the Severn River, on which are 248 buildings with equipment totaling an original cost of \$41,353,684.

An act of Congress approved on May 25, 1933, authorized the Superintendent to confer the degree of bachelor of science upon all graduates from and after the date of the accrediting of the Academy by the Association of American Universities. That association had placed the Naval Academy on its approved list on October 25, 1930, and graduates commencing with the class of 1931 became eligible for the degree. By virtue of an act of Congress approved July 8, 1937, the Superintendent is now authorized to confer the degree upon all living graduates.

The total number of graduates of the United States Naval Academy, including the class of 1960, is 29,824.

The administration of the Naval Academy is under the Bureau of Naval Personnel, Department of the Navy, Washington, D.C. Entrance requirements are fully set forth in the pamphlet Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen, copies of which may be obtained by application to the Bureau of Naval Personnel. A description of the course of instruction is contained in the pamphlet, Course of Instruction at the United States Naval Academy, Annapolis, Md., copies of which may be had by applying to the Academy.

## RELATIVE STANDING OF MIDSHIPMEN WHO COMPLETED ELECTIVE OR ALTERNATE COURSES DURING THE ACADEMIC YEAR 1959-60

*This report covers midshipmen of the three upper classes who completed elective courses, and midshipmen of the Fourth Class who validated some portion of the basic work of fourth class year and who completed alternate courses in lieu thereof. Standing is reported in parenthesis alongside the course catalogue designation. The first number is the standing and for upper classmen who completed electives, the second number is the number taking the same course regardless of class. For Fourth Classmen, the second number is the number of Fourth Classmen taking the same alternate course. Courses are identified by their catalogue designations and full course titles are given on page 114. If the symbol # precedes the catalogue designation it indicates that an unsatisfactory term mark was received.*
